## ADDITIONAL TRANSIT INVESTMENTS

### BUS RAPID TRANSIT

- \$67 million for carrying the New Bern Corridor in East Raleigh through completion. If the project receives federal funds, design should finish by the end of 2020, with construction beginning in 2021 and the services operating by late 2023.
- \$4.5 million to continue work on the other three BRT corridors -- north along Capital Boulevard, west along Western Boulevard and south along Wilmington Street.

### BUS STOPS AND PARK & RIDE LOTS

More than \$6 million for benches, shelters, signage, lighting and ADA access ramps at new and existing GoRaleigh, GoCary and GoTriangle bus stops and to enhance, renovate and add GoTriangle park-and-ride lots serving North and West Raleigh.

### EASIER TRANSFERS

**NEW East Raleigh Transfer Facility:** Establish a park-and-ride for up to 100 spaces to connect to up to four routes, including the New Bern Avenue bus rapid transit route.

**NEW Midtown Raleigh Facility:** Buy land and begin design work for a facility that allows travel east to west without having to go into downtown Raleigh.
