

GREATER TRIANGLE COMMUTER RAIL

The Greater Triangle Commuter Rail Study is evaluating a commuter rail train that would run primarily at rush hours between Garner or Clayton and West Durham within an existing rail corridor, stopping at downtown Raleigh, N.C. State, Cary, Morrisville and Research Triangle Park along the way.

Several initial transit studies showed that providing a fast and reliable transit alternative between downtown Durham and downtown Raleigh should be a priority and that commuter rail likely would be the best option. No matter how bad traffic gets, the time it takes to ride the train across the Triangle will never change.

DEMOGRAPHICS

Transit partners across the Triangle are committed to going forward together. Completing the demographic information below helps GoTriangle meet our data collection requirements and public involvement obligations under Title VI of the Civil Rights Act of 1964. The information collected will help improve how we serve the public. Please answer the demographic questions (which will not be associated with your contact information) to help us ensure we are reaching representatives of the region we serve and advancing equitable outcomes for this phase of study.

WHAT IS YOUR AGE?

- 18-25
 36-45
 56-65
 Over 75
 26-35
 46-55
 66-75

WHAT IS YOUR GENDER?

- Male
 Other
 Female
 I prefer not to answer

WHAT IS YOUR RACE/ETHNICITY?

- White
 Asian
 Other
 Black/African-American
 American Indian or Alaska Native
 I prefer not to answer
 Hispanic/Latino/Spanish
 Native Hawaiian or Other Pacific Islander

WHICH OF THE FOLLOWING GROUPS DOES YOUR TOTAL ANNUAL HOUSEHOLD INCOME FALL INTO?

- Less than \$20,000
 \$50,000-\$74,999
 \$101,000-\$124,999
 Other
 \$35,000-\$49,999
 \$75,000-\$100,000
 \$125,000 or more

The main goal of the current phase of study is to give decision-makers enough information and public input to determine whether to proceed with the project. Specifically, project partners hope to reach agreement on an initial project concept that includes station locations, a possible extension to Clayton, new train tracks, bridges, changes to the roadway network, how often the trains would run and train storage and maintenance needs. Let us know what you think by answering the following questions:

WHAT WOULD YOU LIKE IN A COMMUTER RAIL TRAIN THAT CONNECTS DURHAM AND WAKE COUNTIES?

WHAT DO YOU SEE THE COMMUTER RAIL TRAIN DOING FOR YOUR COMMUNITY?

HOW WOULD YOU PREFER TO RECEIVE INFORMATION REGARDING THE PROGRESS OF A TRANSIT PROJECT?

AT THE END OF THIS STUDY, LOCAL LEADERS WILL DECIDE WHETHER TO MOVE FORWARD WITH THE PROPOSED COMMUTER RAIL TRAIN. WHAT ELSE SHOULD THEY BE CONSIDERING TO MAKE THAT DECISION?
